## HP LaserJet 4200/4300 series printers

Exceed workgroup expectations with the HP LaserJet 4200 and HP LaserJet 4300 series' consistently high performance and print quality. Intelligent, versatile and reliable, these monochrome printers offer a wealth of features designed to make them easy to use and manage.

HP LaserJet 4200/n/Ln and HP LaserJet 4300/n

For business users in enterprise, large, medium and small organisations the HP LaserJet 4200 and HP LaserJet 4300 series offer reliable HP LaserJet performance, unrivalled versatility and an easy to use and manage solution which meets the high printing demands of workgroups of 5-15 users.

#### Set a new performance standard and achieve increased productivity within the workgroup.

- Save time and improve productivity with printing up to 33 ppm with the HP LaserJet 4200 series (28 ppm on Ln model) and up to 43 ppm with the HP LaserJet 4300 series.
- Print complex document faster, with a quicker return to the application with 300 MHz processor (4200 series) or 350 MHz processor (4300 series), and standard memory of 48 MB RAM on 4200 series (extended to 64 MB on n/tn/dtn/dtnsl) or 64 MB RAM on 4300 series (extended to 80 MB on n/tn/dtn/dtnsl).
- No warm-up time with the instant-on fuser and a first page out in under 8.5 seconds.
- No performance compromise with high quality output of 1200 dpi at full speed.
- · Simplify workflow with document management features like proof and hold, private printing and quick copy.

#### More versatile solutions you can tailor to your workgroup's document creation and management needs.

- Share fast, reliable printing and best-in-class security with an HP Jetdirect EIO print server\*.
- Enjoy flexible connectivity via HP's accessible architecture with EIO interface and many partner solutions for most network environments.
- Improve efficiency with a variety of paper handling solutions: increase the input capacity to 2,600 sheets with additional 1500-sheet tray; be more productive with duplex, envelope feeder, stacker and stapler/stacker accessories.
- Upgrade the memory easily to 416 MB.\*\*

#### Simple to use, easy to manage, the intelligent solution to a workgroup's complex printing demands.

- Effortless management with HP Web Jetadmin allows easy network installation, remote diagnostics and error correction.
- An Embedded Web Server (EWS) provides direct access to the printer via a standard web browser, and allows full control to remotely configure device settings and e-mail alerts.
- Monitor levels of consumables with HP's smart print supplies system.
- Superior output quality and consistent results with a 'no shake' high capacity smart print cartridge (18,000 pages).

HP LaserJet 4200dtnsl and HP LaserJet 4300dtnsl

- \*Optional with base model
- \*\*Maximum memory of 288 MB on the Ln model

# Advanced performance for your workgroup

You need high performance printers you can count on, day after day. So HP has developed proven and reliable technologies to ensure outstanding and consistent print quality, the hallmark of every HP LaserJet monochrome printer. Supported by and compatible with the widest range of software applications and operating systems, the HP LaserJet 4200 and HP LaserJet 4300 series both deliver unrivalled performance. You know you will get quick return to application, fast first page out and fast ongoing print speed. You also get the flexibility to create high quality documents on a choice of media sizes and types, with a wide range of paper handling accessories. Both series are easily upgradeable, and can be expanded to let your workgroups share easily. See the difference in your workgroup's performance, whichever HP LaserJet printer you choose.

### HP technologies lead the way

#### Fast results with HP's instant-on fusing technology

Our unique instant-on fusing technology delivers an industry-leading first page out time of less than 8.5 seconds (10 seconds on the Ln) on an HP LaserJet 4200 or 4300 series printer, from cold or warm start. No warm-up time is needed, and the printer immediately returns to power-save mode without consuming energy, which saves you money. It also has a very low noise level, so you won't get disturbed by your printer.

#### Great print quality with HP's smart print supplies

Smart features enhance print quality, facilitate cartridge installation and supplies management:

- Dynamic electrophotographic adjustments and the "no-shake" feature ensure consistent print quality throughout the lifetime of the print cartridge
- Supplies status monitoring and proactive e-mail alerts when supplies are low ensure maximum printer uptime and minimum user intervention
- Print job assessment and cartridge usage data tracking enables better cost control

#### HP's all-in-one print cartridge

- The print cartridge is designed as a closed unit containing toner, the drum and the developer unit, so there is only one item to replace. When the print cartridge is exchanged, all components that are critical for the imaging process are also exchanged, ensuring optimum print quality over the life of the printer
- Fitting an HP print cartridge is extremely simple and requires no technical expertise
- Magnetic seals prevent toner leakage, keeping the printer and the paper clean

## Print cartridges with charge rollers for a safer environment

HP's charge roller technology uses a roller, which is in direct contact with the imaging drum, and no corona wire. The direct transmission of electrical charges to the drum generates virtually no ozone emissions. And no wire means no manual cleaning, saving you time and money.

## Meeting your workgroups' needs

#### Easier management control

The HP LaserJet 4200 and 4300 series incorporates advanced hardware and software features to make device management scalable - from a critical single device to your complete network of connected peripherals.

- HP Embedded Web Server (EWS) provides direct access to the HP LaserJet 4200 and 4300 series on the network and allows full control to remotely configure device settings and email alerts, monitor status, and diagnose device problems
- HP Web Jetadmin enables remote driver installation, configuration, diagnostics, and proactive management for all your network peripherals from a common web browser
- Device problems can be resolved quickly with direct access to targeted self-help information via the web

#### **HP Jetcaps solutions**

HP's accessible architecture enables the creation, delivery and integration of a wide range of business printing solutions, developed by our global network of HP JetCAPs partners. Products can be mixed, matched and customised to give you the hardcopy solution you require.

Solutions include:

- E-forms and stationery
- Corporate design
- Barcodes and cheque printing (OCR and MICR)
- Printing from SAP R/3 and ERP packages
- Secure printing using smart cards
- Host printing
- Cost-controlled printing and copying
- Print job accounting and special industry solutions

Additional information can be obtained at www.jetcaps.com

#### Benefits of the HP LaserJet 4300 series

	HP LaserJet 4200 series	HP LaserJet 4300 series	Benefits of the HP LaserJet 4300 series  Built to meet the advanced performance demands of workgroups with high printing needs		
Workgroup size	5 – 10 users	5 – 15 users			
Speed, A4	Up to 33 ppm Up to 28 ppm on the Ln	Up to 43 ppm	Improve your productivity with very fast printing speed, ideal for a large workgroup's high-volume network printing needs		
Processor speed	300 MHz	350 MHz	Enjoy a quicker return to application with a powerful processor		
Memory	48 MB (64 MB in n/tn/dtn/dtnsl)	64 MB (80 MB in n/tn/dtn/dtnsl)	Achieve a new higher performance standard and greater productivity with large in-built memory and faster printing of complex documents		
Monthly duty cycle	Up to 150,000 Up to 125,000 on the Ln	Up to 200,000	Large duty cycle and highly reliable engine enable you to print large volumes every day		
Print cartridge capacity*  * 5% coverage	Up to 12,000 pages	Up to 18,000 pages	Print longer without intervention with hp ultraprecise high capacity print cartridge
